Prepared by

JAMES HARRIS, MD, MEDICAL DIRECTOR, SURGICAL ONCOLOGY
AND CANCER LIAISON PHYSICIAN TO THE AMERICAN COLLEGE OF SURGEONS
AND KARIN KLOVE, MD, PHYSICIAN ADVISOR FOR SAINT MARY'S
NATIONALLY ACCREDITED BREAST CENTER

DECEMBER 2011

Saint Mary's

Saint Mary's

The physicians and staff of Saint Mary's Center for Cancer are very proud to release the latest data regarding the treatment of breast, colon and lung cancer at Saint Mary's Regional Medical Center. As a nationally accredited comprehensive cancer center, Saint Mary's tracks all of its results and submits them to the National Cancer Data Base (NCDB). The NCDB is important in evaluating national progress and trends in the diagnosis and treatment of cancer, but also allows Saint Mary's to compare our results with those of similar community comprehensive cancer centers. This data is available on a national scale through the year 2008.

Dr. Karin Klove,
Physician Advisor, Breast Program

SAINT MARY'S CENTER FOR CANCER

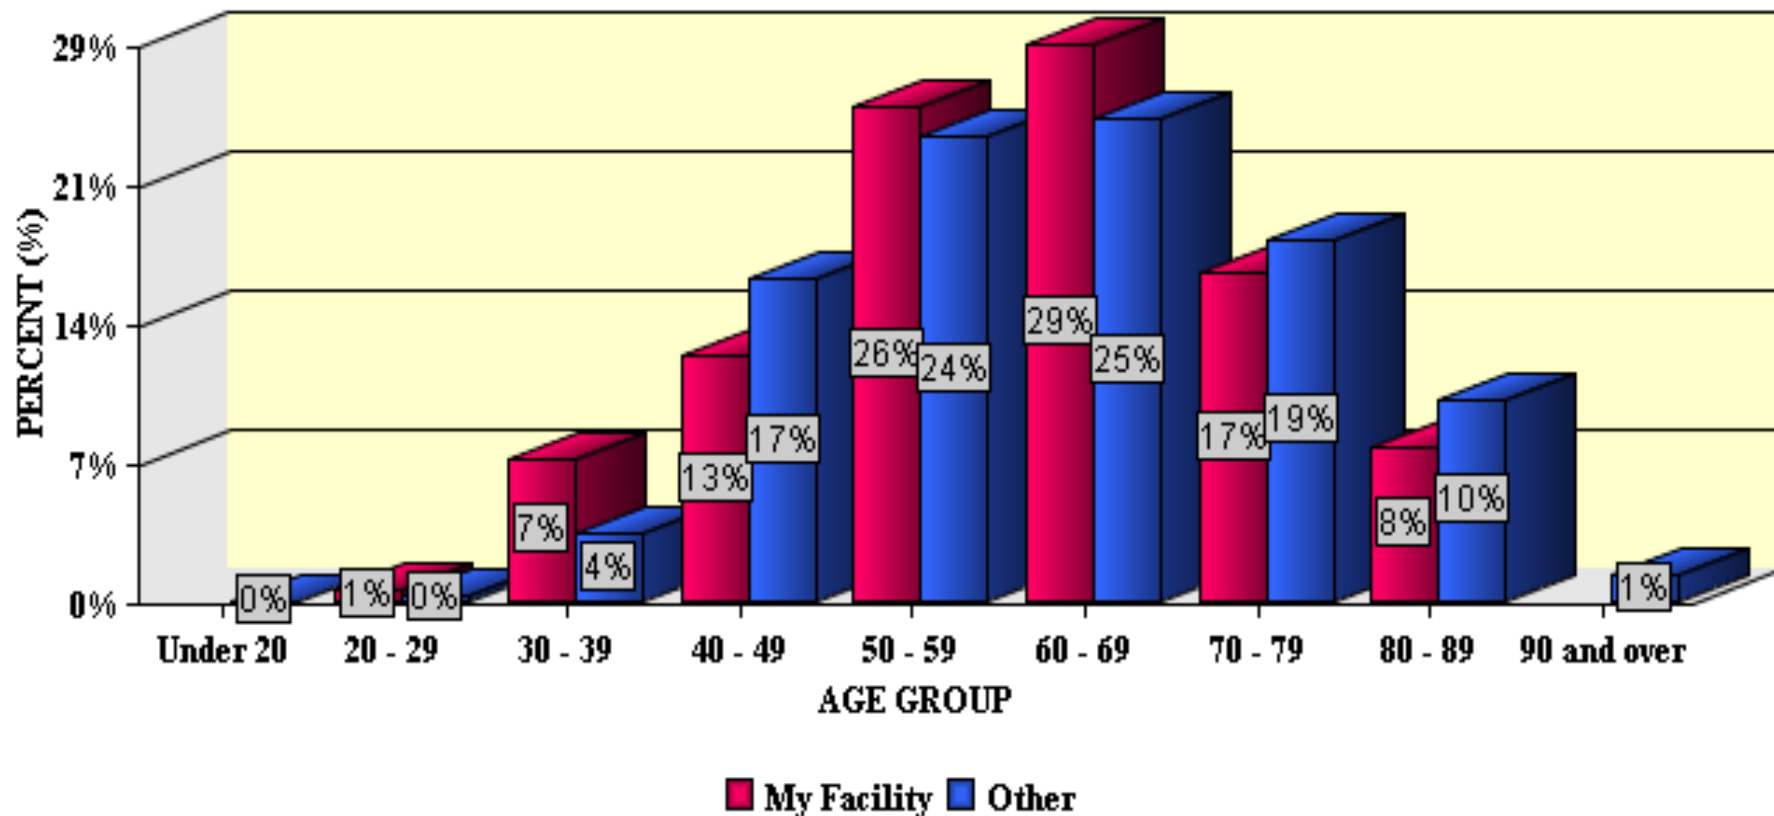

2010 Breast Cancer Site Study

Dr. Karin Klove, Physician Advisor, Breast Program
(utilizing 2008 comparative class 1 data and cancer registry)
